

**Department of Computer Science and Engineering,
Jabalpur Engineering College, Jabalpur**

Vision

To be a leader in providing academic excellence and research outputs in advanced fields of computer science engineering satisfying the global needs

Mission

- To impart highest quality education to the students to make them globally competitive computer science engineers embedded with wisdom and dedicated to ethics and values.
- To develop critical thinking, effective communication and lifelong learning skills in students
- To maintain state of the art research facilities and collaborative environment that stimulates faculty, staff and students with opportunities to create, analyze, apply and disseminate knowledge.
- To promote the graduates for multidisciplinary knowledge for technological innovation and entrepreneurship.
- To establish strong linkages with technical institutions, industries, R&D organisations and community.

Programme Educational Objectives (PEOs):

The Computer Science and Engineering graduates within 3-5 years of their graduation will able to

1. Apply state-of-the-art technology effectively in analysing, designing and developing innovative solutions for complex real world problems
2. Excel in their higher studies and carry out exhaustive multidisciplinary research by applying concepts of Computer Science and Engineering domain
3. Demonstrate communication skills, ethics, professional attitude, team spirit and lifelong learning essential for working in professional communities and starting their own enterprise
